A report and recommendation will go to Council on September 2, 2009. Councillor Berze questioned the timing of the projects and if one would be completed in advance of the other. Maureen stated that she sees no reason why the construction projects cannot be undertaken concurrently.

2.2 Transportation Division

2.2.1 Deputy Mayor Bannister asked if there is the ability to complete roadside weed cutting more than once a season and cutting a wider swath. Maureen Lobby responded that it is possible, but the budget is prepared based on one cutting a season. Staff will prepare an Information Report for next committee meeting to analyze the cost implications of additional roadside weed cutting. It was recommended that this also be discussed as part of the 2010 Budget process.

2.2.2 Councillor Filson requested an update on the installation of the traffic light at Ilderton Road and Hyde Park Road and the catch basin issue at the same location. He expressed concern that neither of these projects should be undertaken during the Ilderton Fair. Discussion took place with respect to the possibility of the municipality repairing the drainage problem at Hyde Park Road and Ilderton Road and submitting the bill to the County of Middlesex for the work. 4.3 Presentation of Design of Community Wellness & Recreation Centre

the Building Committee led discussion on the preliminary plan and design and updated Council on their progress to date.

4.4 Community Schools Alliance

The Municipality has received a request by the Community Schools Alliance to support a discussion with the Minister of Education requesting that a “smart moratorium” be placed on school closings to provide the Ministry with time to work together with municipalities to develop policies to address declining enrolment.

Resolution # 2009/174

Moved by Ken Filson

Seconded by Albert Bannister

WHEREAS communities across Ontario are concerned with the Accommodation Review Committee process and the impact this flawed process has on the socioeconomic fabric of our municipalities;

AND WHEREAS many schools are the hubs of their communities, a better accommodation review system is needed to address the educational facility needs of our residents;

AND WHEREAS a system to address the educational facility needs in Ontario must ensure that school boards and municipal councils partner on decisions regarding education infrastructure;

AND WHEREAS greater accountability for school board decisions is needed;

AND WHEREAS a thorough review of the governance model for school accommodation decisions must include an opportunity to appeal these decisions;

AND WHEREAS the accommodation review process should respect and value the input of students, parents, the community and municipality;

THEREFORE BE IT RESOLVED that the Province of Ontario be petitioned to implement a “smart moratorium” on disputed school closings to provide the opportunity for the Ministry of Education, school boards and municipalities to work together to develop policies addressing such issues as planning for declining enrolments, a mutually agreed upon Accommodation Review Committee process, a review of funding to rural and small community schools, and transparency and accountability between municipalities and school boards.

2. Application for an Official Plan Amendment and Zoning By-law Amendment from Jim Graham for lands described as Part of Lot 4, Concession 1; Reference Plan 33R-1696 (geographic Township of Lobo), Municipality of Middlesex Centre.

Mayor Edmondson provided an introduction stating the purpose of the Public Meeting and stated the process following the Public Meeting. Planning staff confirmed that notice of the Public Meeting had been given in accordance with the Planning Act.

There were five members of the public in attendance regarding the applications. The applicant, Jim Graham was in attendance. Agent for the applicant, Ms. Carol Wiebe of MHBC Planning was also in attendance.

Marc Bancroft, Senior Planner provided an overview of the applications indicating that the purpose of the Official Plan Amendment application is to redesignate the property from Agriculture to Agriculture Special Policy Area # to permit the creation of a residential lot to accommodate the future construction of a single detached dwelling which would otherwise not be permitted. He indicated that the purpose of the zoning by-law amendment is to rezone the subject property from Restricted Agricultural (A2) to a site-specific Restricted Agricultural (A2-#) to include a minimum lot area of 1.0 hectares (2.47 ac.), a maximum lot area of 19.23 hectares (47.51 ac.) and a minimum lot frontage of 30 metres (98 ft.). He indicated that the parent A2 zone requires a minimum lot area of 40 hectares (99 ac.) and a minimum lot frontage of 300 metres (980 ft.) with alternative lot areas for residential purposes of 2,025 square metres (0.5 ac.) and a maximum lot area of 0.6 hectares (1.48 ac.).

Comments from the County of Middlesex, Upper Thames River Conservation Authority, the Chief Building Official, and the Public Works and Engineering Department were presented.

Ms. Wiebe outlined the planning justification report that had been submitted in support of the planning applications. In summary she indicated that the land is not suitable for agricultural production and is surrounded by aggregate operations and the village of Komoka. She indicated that the subject property has two existing driveway accesses and therefore additional access to the County of Middlesex road will not be required. She noted that bringing the subject land into the settlement boundary of Komoka is not warranted as there are limited development opportunities for the land. She indicated that the approval of the subject applications would not establish a precedent with respect to residential severances in an agricultural designation.

Councillor Ritchie inquired what studies had been undertaken by Ms. Wiebe to support her statement that no precedent would be established with the approval of this application.

Ms. Wiebe indicated that she had not undertaken a review of other areas in the Municipality to determine whether a similar situation would exist, however she indicated that each planning application should be reviewed on its own merits.

Councillor Ritchie inquired if the proposed application represents an efficient use of land.

Ms. Wiebe indicated that there are constraints on the subject property as a result of the previous aggregate extraction.

The Mayor thanked those in attendance for their comments and indicated that application will be forwarded to the September 16, 2009 Planning and Development Services Committee for consideration.
